Re: Grade 7-12 Students Move to At-Home Learning

Dear Parents/Guardians of WHS Students:

In the past four days, we have worked through 11 COVID-19 cases. This has impacted multiple grades and staff who are now at home self-isolating. To minimize the continued risk of spread and increasing the numbers of staff and students self-isolating, we have received permission from Alberta Education to move our Grade 7-12 students to at home learning from Monday, May 3 - Friday, May 14.

We are trying our best to minimize the spread and keep staff and students safe.

The Outbreak /EI Number assigned to our school is **2021-5392**. Please use this number if your student develops symptoms and gets tested for COVID-19. We will continue to work through our close contacts of COVID-19 when they occur to ensure that those who are close contacts self-isolate.

Your student's teachers will be in touch about learning online Monday. The time schedule will remain the same for each course.

If you have questions, please contact school administration. Thank you for your cooperation and support during this time.

Thank you,

Vince Hill
