PROCEDURES:

School physical activities must be selected very carefully and be motivated on enhancing the educational experiences of students while considering the injury risk factors associated with the activity.

1. Curricular outcomes provide the rationale for engaging in any student centered activity and participation must be tied to achieving these outcomes.
2. Schools are prohibited from allowing students to participate in “Excluded Activities” identified in the ASBIE “Risk Matters” information package (302.9 Exhibit 2)
3. Schools that are considering participating in the “High Risk Activities NOT Recommended” identified in the ASBIE “Risk Matters” information package (302.9 Exhibit 2) must request written approval from the Superintendent of Schools.
4. Schools who are participating in the “High Risk Activities” identified in the ASBIE “Risk Matters” information package (302.9 Exhibit 2) must adhere to the expectation outlined in the “Safety Guidelines for Physical Activities in Alberta Schools”. Schools who are participating in the activities identified in item 3 must complete the Physical Activity Notification (Exhibit 1)
5. Participation in other physical activities not identified in the ASBIE “Risk Matters” information package (Exhibit 2) must be conducted in strict adherence to the “Safety Guidelines of Physical Activity in Alberta Schools.
