

BUFFALO TRAIL PUBLIC SCHOOLS – BTPS Supports Staff on New Curriculum – NEWS RELEASE – Tuesday, September 27, 2022

It has been an exciting return to school for students in Buffalo Trail Public Schools. We are back into our school routines in our classrooms.

This year, teachers across the province will be implementing a new curriculum. The K-3 curriculum for Math, English Language Arts and Literature and K-6 Physical Education and Wellness are new. Parents/Guardians will be able to hear more about this from their schools and teachers.

BTPS is providing support for our teachers through sessions that began in Spring of 2022 that allowed teachers to dive into the contents of the new curriculum. Throughout the 2022-2023 school year, teachers will continue to have professional learning opportunities to support many components of the new curriculum. BTPS has Innovation Coaches working alongside teachers to support them on creating learning for students that align to the curriculum. In addition, BTPS has purchased numeracy and literacy resources for teachers.

See Kindergarten students from Vermilion Elementary School hard at work below.

Parents/Guardians and community members who are interested in an overview of what the new curriculum means in our classrooms, are able to view our previous engagement sessions on our website at www.btps.ca.

As we head into a new school year, I want to extend a huge thank you to our BTPS staff for organizing such wonderful back-to-school activities. Between all the back-to-school messages, pancake breakfasts, barbeques, muffin mornings and extra-curricular activities, our staff have ensured that BTPS students and families are welcomed, supported, and will continue to thrive in our learning environments!

BTPS is proud of the work of our teachers in supporting the learning of all students. We strive to improve student learning, in a safe and caring environment, supported by a highly effective team.
